Organizing Committee

UN-Sustainable Development Goal

The Sustainable Development Goals are a universal call to action to end poverty, protect the planet and improve the lives and prospects of everyone, everywhere. The 17 Goals were adopted by all UN Member States in 2015, as part of the 2030 Agenda for Sustainable Development which set out a 15-year plan to achieve the Goals. Today, progress is being made in many places, but, overall, action to meet the Goals is not yet advancing at the speed or scale required 2020 needs to usher in a decade of ambitious action to deliver the Goals by 2030.

Go Goals

The Go Goals game is a board game that aims to help teach children around the world about the Sustainable Development Goals in a simple and child-friendly way.

We cordially invite you to our Global Summit a free online event with multiple workshops by students, thought leaders, the UN officials, and a special strand devoted to planning for impact and taking action.

Taking action

Global Summit will focus on driving action and impact into our communities, using our knowledge and skills gained from UN to make real change in the world.

Don't wait to grab your spot. Pre-register today!

About Goal -8

Gender bias is undermining our social fabric and devalues all of us. It is not just a human rights issue; it is a tremendous waste of the world's human potential. By denying women equal rights, we deny half the population a chance to live life at its fullest. Political, economic, and social equality for women will benefit all the world's citizens. Together we can eradicate prejudice and work for equal rights and respect for all.
